Claims 1-12 are pending.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (a) Claims 1, 4, 7 & 10, the recitation(s) "...is smaller than 0.3 um" is indefinite, since this would encompass zero as well. It is not readily apparent what range of values this would encompass, since an overlap of zero would eliminate the limitation; (b) similarly for the other claims, reference to "smaller than" is indefinite.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1-12 are rejected under 35 U.S.C. 102(a) as being anticipated by Shoji (EP 1117091). Shoji discloses an MR device (as shown in FIG. 21) including two electrode layers 42 which overlap the MR element 33 by an amount between 0.01 and not greater than 0.25, which meets the claimed "smaller than 0.3um".

Art Unit: 2652

5. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Response to Arguments

6. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.
